

TESTIMONIALS

"I hired TRI when I got a notice from the IRS about some back taxes that I owed, and they levied my bank account and took what little I had to pay my rent. They were very knowledgeable and willing to help me. I had heard the commercials where other companies promise to settle the debt and I told them that's what I wanted. Turns out, not everyone qualifies for that program and TRI was able to walk me through a more reasonable solution. **I now have a plan in place that I can afford, and they got rid of the threat of levying my accounts again.** Thanks TRI! I highly recommend them."

"Tax Resolution Institute helped me **start my life over by settling my IRS debt totaling over \$500K.** It took about two years to finalize my lien with the IRS but I would have waited longer for the settlement they were able to get for me!"

-Happy Customer B | West Hollywood, CA

"Peter Stephan and his team at TRI far exceeded my expectations and even my hopes. **It's a scary thing getting an unexpected letter with a big number attached to it** from any taxing agency and in my case, I thought I'd be losing my house and my business and perhaps even my freedom. Peter wasted no time in telling me the facts of what was likely to go down and he was spot on with every bit of the process.

He didn't just save my house and business, he saved my sanity. He's not going to sugar-coat anything (a trait I appreciate) but when you know what to expect, it makes life so much easier. For the size of the problem he handled for me, the cost seems insignificant. He's smart, well-connected and provides real value for what you get in return. I can recommend Peter Stephan and his team without an ounce of hesitation."
